### **Homebound Instruction**

Homebound and hospitalized services are designed to provide continuity of educational services between the classroom and home or hospital for pupils in public schools whose medical condition does not allow them to attend school for a period. The pupil's inability to attend school due to a medical condition must be certified by the pupil's licensed attending physician. Homebound and hospitalized services are designed to be a self-study program that allows pupils to maintain their coursework and studies while they are unable to attend school. These services allow the classroom teacher to work through the homebound and hospitalized teacher to help distribute course materials, deliver instruction, and monitor pupil progress in the course.

Please contact your building principal, school counselor, or Academic Services department for further information on Homebound Services.
